

Huawei is a global leader of ICT solutions. Continuously innovating based on customer needs, we are committed to enhancing customer experiences and creating maximum value for telecom carriers, enterprises, and consumers. Our telecom network equipment, IT products and solutions, and smart devices are used in 170 countries and regions. With annual sales revenue of USD over 100 billion in 2019, Huawei ranked 49th on the Global Fortune 500.

We invest over 10% of our annual sales revenue into R&D and more than 45% of our 194,000 employees engage in R&D. Leveraging our experience and expertise in the ICT sector, we help bridge the digital divide and promote high-quality broadband connectivity for all. As an advocate of socioeconomic sustainability, we make every effort to support secure and stable network operations, and help customers and industries improve efficiency to drive low-carbon economic growth. By localizing our operations and building a global value chain, we help local innovators maximize their global value and share win-win outcomes.

A better connected world is on the horizon. Working closely with partners, we endeavor to build an efficient and integrated digital logistics system which will enhance interconnectivity and interactivity – between people and people, people and things, and things and things – to spark infinite opportunities and potential for everyone everywhere and to move the world forward.
